WORK EXPERIENCE

Fort Mill Tutors Aug. 2024 – May 2026 | Co-Founder Fort Mill, SC

- Co-founded and grew a student-run tutoring business, recruiting 6 tutors and expanding offerings
- Coordinated tutor-client scheduling, lesson planning, and operations across multiple students
- Developed social media and community marketing strategies that generated recurring clients and revenue
- Provided instruction that improved students' academic performance by an average of one letter grade

Firebirds Wood Fired Grill Jun 2025 – Sep. 2025 | To Go Server Fort Mill, SC

- Managed high-volume takeout orders while maintaining accuracy, speed, and quality of service
- Processed payments, resolved customer concerns, and coordinated requests between guests, kitchen staff, and servers
- Balanced competing priorities in a fast-paced environment while maintaining strong customer service

Fish Market Bar & Grill April 2023 – Aug. 2023 | Server Assistant Fort Mill, SC

- Supported front-of-house operations by delivering food, resetting tables, and responding to guest needs
- Maintained dining room organization, cleanliness, and sanitation during high-volume service
- Collaborated with servers and restaurant staff to ensure efficient operations and positive guest experiences

---

PROJECTS

Daydream Charlotte July 2025 – Sep. 2025 | Co-Organizer Rock Hill, SC

- Co-organized a 24-hour game development event attracting 50+ participants and managed event logistics
- Built and maintained the event website to support registration, communication, and event information
- Led a programming workshop teaching participants how to develop a platformer game

APEX April 2025 – Jun. 2025 | Participant Boston, MA

- Designed and launched a high-altitude balloon experiment to collect muon and cosmic-ray data in the stratosphere
- Configured Raspberry Pi systems and electronic hardware for automated data collection and experiment monitoring
- Analyzed experimental data to investigate cosmic-ray activity at high altitude

---

VOLUNTEERING

Gigi's Playhouse May 2025 – May 2026 | Mathematics Tutor Charlotte, NC

- Tutored a student with Down syndrome, ensuring proficiency in math skills: counting, adding, and subtracting
